1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 17-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 3-4 of independent claim 17, it is unclear in context what is meant by "transmit oscillator." Please see 37 CFR 1.75(d)(1).

On lines 6-7 of independent claim 17, it is unclear in context what is meant by "receive oscillator." Please see 37 CFR 1.75(d)(1).

On line 14 of independent claim 17, it is unclear in context what is meant by "transmit and receive oscillator." Please see 37 CFR 1.75(d)(1).

On lines 4 and 7 of independent claim 17, the uses of the phrase "a frequency above 3 MHz" are indefinite and unclear in context in that the phrase is open-ended, and so would include frequencies that would be meaningless in the context of the claim. For example, this open-ended range would include gamma rays, which could not have anything to do with the claimed "radar arrangement" (line 1).

On lines 3-4 of dependent claim 23, it is unclear what is meant by the phrase "a filter filtering above 3 MHz." What is this action of "filtering" in this context? Does the word "filtering" mean that the frequencies in the range are blocked? Could this filter with this open-ended frequency range filter at

frequencies far above RF? For example, could the filter operate at 1,000,000,000,000 MHz?

On line 8 of independent claim 24, the phrase "measurement signal that can be evaluated" is indefinite and unclear in that it does not state clearly and definitely that the "measurement signal" is "evaluated."

Dependent claims 18-23 and 32 are unclear at least in that they depend from unclear independent claim 17.

Dependent claims 25-31 are unclear at least in that they depend from unclear independent claim 24.

3. Claims 17 and 24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 18-23, 32, and 25-31 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
